Instructions for TC-20L

General Instructions

Form TC-20L is used for calculating a refund due to the carryback of a Utah net loss shown on a corporation return. Form TC-20L must be used instead of filing amended returns for the carryback years.

For taxable years beginning on or after Jan. 1, 1994, if an election is made to forego the federal net operating loss carryback and only carry the loss forward, then the Utah net loss may not be carried back unless a separate Utah election is made on form:

TC-20, Schedule A, or
TC-20MC, Schedule A, Part 2, or
TC-20REIT.

If no election is made on the loss return, the loss must be carried back in accordance with the following line-by-line instructions.

A Utah net loss from a taxable year beginning on or after Jan. 1, 1994, that is carried back, must first be applied to the third prior taxable year's income. Any loss not entirely used in the third prior taxable year must be carried back to the second prior taxable year. Any loss not entirely used in the second prior taxable year must then be carried back to the first prior taxable year. Any loss remaining at that point may be carried forward to the next fifteen taxable years.

The carryback loss is limited to \$1,000,000. Any loss in excess of \$1,000,000 must be carried forward.

Line-by-Line Instructions

REIT Loss Carryback

Mark "X" at the top of the form if the loss carryback is from a Real Estate Investment Trust (REIT) return.

1. Taxable Year End of Loss Year

Enter the end date for the taxable year of the loss in mm/dd/yyyy format (for example, enter Dec. 31, 2008 as 12/31/2008).

2. Loss to be Carried Back

Enter the total Utah net loss as a positive number. The loss for a regular corporation is on TC-20, Schedule A; the loss for a Real Estate Investment Trust is on TC-20MC, Schedule A, Part 2, or TC-20REIT.

3. Loss Exceeding \$1,000,000

The carryback of a Utah net loss is limited to \$1,000,000. Enter the loss exceeding \$1,000,000. If the loss on line 2 is \$1,000,000 or less, enter zero.
